

Instructions to Apply for a Ph.D./M.S. Researcher Position
Professor Scott Moura | [eCAL](#) | [UC Berkeley](#)

Thank you for your interest in eCAL and UC Berkeley. We receive many graduate student researcher (GSR) requests per year. PhD and M.S. students can ***only*** be admitted via the UC Berkeley Graduate Division website: <http://grad.berkeley.edu/>

In other words, we cannot directly admit you to become an eCAL researcher at UC Berkeley unless you apply through the UC Berkeley Graduate Division admissions portal. There are absolutely zero exceptions.

I encourage you to apply to the Department of Civil & Environmental Engineering, and one of the following two programs:

- [Energy, Civil Infrastructure, and Climate \(ECIC\)](#)
- [Systems](#)

You may indicate my name under “faculty of interest”. If you do this, then I will be notified and consulted during your application evaluation.
